

strada

**Designed for the modern café,
with input from baristas**

The most technologically advanced traditional espresso machine featuring a barista-friendly design.

A lower profile invites customer engagement in a café setting, while also providing the barista an open, expansive work area.

The Strada platform has been designed to encourage creativity and customization so that each machine can be unique.

North America Strada Features and Specifications

Semi-Automatic (EE) Paddle

Manual Paddle (MP)

Electronic Paddle (EP)

Independent Boilers

Separate boilers for each group head allow baristas to optimize temperature for individual coffees.

Thermal Stability System

As water passes through each element, temperature is further stabilized.

Dual PID (coffee & steam)

Allows you to electronically control coffee & steam boiler temperatures.

Hot Water Economizer

Enables you to fine-tune the tap water temperature for rinsing.

Adjustable, Deep Drip Tray

Accommodates a variety of cup sizes.

Ruby Flow Restrictors (EE & MP only)

Ruby flow restrictors resist scale formation and erosion.

Insulated Boilers

Reduce energy consumption while contributing to temperature stability.

Exposed Groups

Ergonomics and workspace visibility.

Digital Display

Intuitive programming makes it easy to adjust machine parameters.

Personalized Color*

Customizable colors based on the RAL color system, on request.

*Special Order

Proportional Steam Valve (EE & EP only)

Lever-style activation for proportional solenoid steam valve eliminates the need for regular maintenance.

Profile Editor (EP only)

Web app allows barista to create pressure profiles for use with the Strada EP. profileeditor.lamarzocco.com

Periscope Pressure Gauges (MP only)

Monitor pressure at coffee during extraction.

Gear Pumps (EP only)

One gear pump per group delivers stable, dependable pressure control.

Auto Backflush (EE & EP only)
